

# RAKESH R

AI Integrated Full Stack Developer

Chennai, Tamil Nadu | +91 7868870249 | rocky85721@gmail.com | linkedin.com/in/rakesh-r-2b391b289 | github.com/rakesh0249

## PROFILE SUMMARY

AI Integrated Full Stack Developer with experience building responsive, user-friendly web applications using modern frontend and full-stack technologies. Skilled in HTML, CSS, JavaScript, React.js, Vite, Node.js, Express.js, MongoDB and the MERN stack. Experienced in building practical applications, responsive interfaces, React routing, API integration, debugging, Git/GitHub and deployment workflows.

## WORK EXPERIENCE

### Frontend Developer — Promethean Software Solution, Tambaram, Chennai | 04/2024 – 04/2025

- Developed and implemented responsive user interfaces using HTML, CSS, JavaScript and React.js.
- Converted design concepts into clean, reusable and responsive frontend components.
- Integrated frontend interfaces with backend and server-side functionality.
- Focused on responsive layouts, cross-browser compatibility and user-friendly interfaces.

### Frontend Developer Intern — Stage A Dream Private Limited, Guduvancherry, Chennai | 05/2023 – 08/2023

- Gained practical experience in frontend web development using HTML, CSS and JavaScript.
- Improved understanding of frontend development workflows and UI implementation.

## PROJECTS

### Village Farmer — Smart Farming Web Application

Technologies: React.js, Vite, JavaScript, HTML, CSS, React Router

- Developed a responsive smart farming web application with multiple pages and reusable components using React.js and Vite.
- Implemented React Router for navigation across Smart Farming, Farm Equipment, Crop Guidance, Water Management, Fresh Products and Farmer Support sections.
- Built responsive layouts for desktop and mobile; debugged routing, component imports and build issues.

### Expense Tracker — Personal Finance Web Application

Technologies: React.js, JavaScript, HTML, CSS, Git, GitHub

- Developed a responsive personal expense tracker using reusable React components and modern JavaScript concepts.
- Used Git and GitHub for source-code management and deployed the project for web access.

### HMS Management Web Application — Client: East Coast Hospital

Technologies: React.js, HTML, CSS, JavaScript

- Built the frontend of the dialysis module, including Login, Patients, Assets and Patient Details interfaces with validation.
- Developed the Diagnosis page with search functionality and export options; focused on responsive, optimized interfaces.

## EDUCATION

### Bachelor of Arts (BA) — Thiruvalluvar University | 2020 – 2023
